 - IBM Client Center Bois Colombes
 - 50 sessions, 2 jours
 - 10^{ème} édition !

DeveloperWorks

- IBM a commencé à débrancher le DeveloperWorks le 1^{er} janvier

The screenshot shows a web browser window with the URL `ibm.com/developerworks/community/wikis/home?lang=en#/wiki/IBM%20i%20Technology%20Updates/page/IBM%20i%20Technology%20Updates`. A yellow warning banner at the top of the page reads: "The developerWorks Connections Platform is now in read-only mode and content is only available for viewing. No new wiki pages, posts, or messages may be added. Please see our FAQ for more information. The developerWorks Connections platform will officially shut down on March 31, 2020 and content will no longer be available. [More details available on our FAQ.](#) ([Read in Japanese.](#))". Below the banner, the IBM logo and "IBM Community" are visible, along with navigation links for "Profiles", "Communities", and "Apps". The "Wikis" section is active, showing "This Wiki" and a search bar. The page title is "IBM i Technology Updates" and the breadcrumb trail at the bottom indicates the current location: "You are in: IBM i Technology Updates > IBM i Technology Updates".

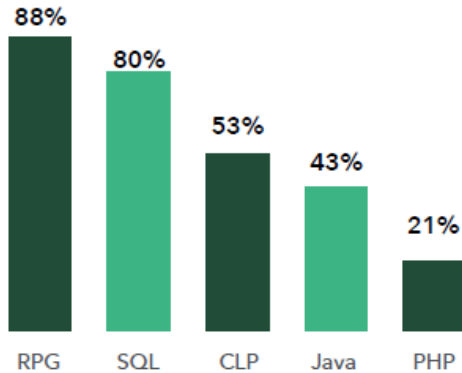

DeveloperWorks

- Quelques liens vers les contenus migrés, vers des emplacements variés :
 - IBM i Technology Updates wiki -> IBM Support portal
 - IBM i services (SQL) -> <http://ibm.biz/Db2foriServices> ou <http://www.ibm.com/support/pages/node/1119123>
 - IBM Rational Developer for i Hub
